

# SCIENCE WORD LIST

flexible	transparent
waterproof	electricity
circuit	power
battery	friction
microbe	air resistance

environment

organism

predator

germ

water

light

temperature

conductor

insulator

thermal

Sun

Mars

magnet

spring

metal

Evaporate

skeleton

condensation

vertebrate

Gas

joint

Pitch

muscle

Vibrate

soil

Sound

clay

Soundproof

sand

Earth

stone

planet

chalk

Satellite

granite

Moon

slate

sphere

solid

revolve

liquid

orbit

melt

spin

freeze

rotate

solidify

axis

filter

sunrise

sunset

virus

light source

decay

shadow

mould

air	feed
oxygen	grow
carbon dioxide	reproduce
helium	Bacteria
natural gas	Explosion
carbon monoxide	Rocket
micro-organism	Spaceship
